

Ultra Vacuum Electrode Feedthrough Connector Flange Power Lead For High Precision Applications

Item Number: KT-VA09

Introduction

Ultra-Vacuum Electrode Feedthroughs for reliable UHV connections. High-sealing, customizable flange options, ideal for semiconductor & space applications.

Parameter Description	Options
Flange specifications	CF16, CF25, CF40, CF63, CF100, KF16, KF25, KF40, KF50, KF63 (customizable)
Lead length	100mm, 200mm, 300mm, 500mm, 1000mm (customizable)
Maximum operating temperature	400°C (customizable)
Maximum operating pressure	10 ⁻¹⁰ Pa
Sealing material	Ceramic, metal
